SUMMARY

I'm a motivated and detail-oriented professional with 1+ years of experience in Digital Marketing and SEO, currently transitioning into Network Security and Ethical Hacking. My growing expertise in cybersecurity fundamentals, vulnerability assessment, and Linux systems complements my analytical mindset developed through marketing data analysis. Passionate about protecting networks and digital assets, I aim to build a career as a Network Security Engineer and contribute to strengthening organizational cybersecurity defenses.

TECHNICAL SKILLS

- Networking Fundamentals (TCP/IP, DNS, VPN, Firewalls)
- Ethical Hacking & VAPT
- Network Security Tools: Wireshark, Nmap, Burp Suite
- Linux / Kali Linux
- Basic Scripting (Python, Bash)
- Keyword Research & Analysis
- On-Page SEO Optimization
- Off-Page SEO & Link Building
- Technical SEO
- Competitor Analysis
- Staying Updated with SEO Trends
- SEO Campaign Management

INTERNSHIP EXPERIENCE

ETHICAL HACKING & CYBER SECURITY

- Assisted the cybersecurity team in performing Vulnerability Assessment and Penetration Testing (VAPT) on client systems using tools like Nmap, Burp Suite, and Wireshark.
- Conducted network traffic analysis and identified potential threats, helping improve network defense configurations.
- Learned and implemented basic firewall and IDS/IPS configurations under supervision.
- Participated in incident response simulations and prepared detailed documentation on findings and mitigation steps.
- Supported system hardening tasks on Windows and Linux environments to enhance security posture.
- Gained hands-on exposure to ethical hacking methodologies and the OWASP Top 10 vulnerabilities.

(2024)

WORK EXPERIENCE

SEARCH ENGINE OPTIMIZATION

- Conduct comprehensive keyword research to identify high-ranking and relevant keywords for content optimization and search engine visibility.
- Optimize website elements, including titles, meta descriptions, headers, and content, to ensure they align with SEO best practices.
- Develop and execute link-building strategies to improve domain authority and search engine rankings.
- SEO Reporting & Analytics: Monitor and analyze website performance using tools like Google Analytics, SEMrush, and Ahrefs to track KPIs, traffic, rankings, and conversions.
- Collaboration with Other Teams: Work closely with web developers, content writers, and marketing teams to align SEO efforts with overall digital marketing strategies.

Rajeshwari Infotel Pvt.Ltd
